

# The YELAPA PROJECT

Winter 2024

Yelapa Secundaria, Yelapa, Mexico

## PROJECT SUCCESS!

Jeff did volunteer teaching at the Yelapa Secundaria during the early part of 2024 and saw the opportunity to help the newly remodeled school. They had a nice computer lab with only limited resources so Jeff and Andy decided to raise funds to rectify this situation. Reaching out to our community of friends and family, the Feyerabend Polak Foundation offered to match any donations towards this goal. With the match we raised \$5561.16 which covered 28 Chromebooks, a bluetooth Projector with 100" screen, various school supplies as well as the import fees and delivery costs! We want to thank the following who donated to this campaign and for making such a positive change for these students and the students to follow. Thank you, thank you, thank you!
